| Module Title | | UX Design for Mobile Devices | | | |
| Module Title in English | | UX Design for Mobile Devices | | | |
| Module Leader | | hrw\ayseguel.doganguen | | | |
| Teaching Staff | | Prof. Dr. Aysegül Dogangün | | | |
| Courselanguage/ | | English, German | | | |
| Code | Workload | Credits | Semester | Semester Offered | Duration |
| UXM | 180 h | 6 | 5th semester | Every semester | 1 semester |
| 1 | Type of Course | Scheduled Learning | Independent Study | | Approx. Number of Participants |
| | Lecture: 2 h/week Practical Course: 2 h/week | 4 h/week (= 60 h) | Total: 120 h | | Lecture max. 150 bzw. 120 Practical Course max. 15 |
| 2 | Learning Outcomes / Competences | | | | |
| | The students have fundamental knowledge about interface, interaction and user experience (UX) design for different type of mobile devices. They know different hardware and software concepts for the human-machine interaction including sensors of intelligent devices. They are able to develop concepts with systematic processes and recent tools as well as to evaluate interactive mobile systems. They can apply participatory methods for the user-centric design of mobile systems, construct prototypes and evaluate these prototypes and their own approach. | | | | |
| 3 | Contents | | | | |
| | Overview on mobile devices and technologies as well as their field of application (e.g. smartphones, tablets, AR glasses, smartwatches, sensors, ...) | | | | |
| | Interaction concepts and style guides for different mobile devices and operating systems | | | | |
| | UX factors for mobile devices | | | | |
| | Usage of sensors for intelligent interaction concepts | | | | |
| | Methods of Participatory Design/Contextual Design | | | | |
| | Selected creativity techniques for developing mobile UX | | | | |
| | Evaluation of user interfaces for mobile devices | | | | |
| 4 | Teaching Methods | | | | |
| | Lecture, seminar, practical course | | | | |
| 5 | Content-Related Module Prerequisites | | | | |
| | Basics of interaction design and usability engineering | | | | |
| 6 | Formal Module Prerequisites | | | | |
| | none | | | | |
| 7 | Type of Exams | | | | |
| | final project (100%) | | Examlanguage: English | | |

| | Project work includes a documentation and presentations | | | | | | |
|------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------|---------------|------------------------------------|------------------------|------------------------------------|------------------------|
| 8 | <p>Prerequisite for the Granting of Credits</p> <p>Successfull exam</p> <p>Participation in project presentations</p> | | | | | | |
| 9 | <p>This Module Appears in:</p> <table border="0"> <thead> <tr> <th>Course of Studies</th> <th>Status</th> </tr> </thead> <tbody> <tr> <td>Mensch-Technik-Interaktion_BPO2017</td> <td>Elected Specialization</td> </tr> <tr> <td>Mensch-Technik-Interaktion_BPO2024</td> <td>Elected Specialization</td> </tr> </tbody> </table> | Course of Studies | Status | Mensch-Technik-Interaktion_BPO2017 | Elected Specialization | Mensch-Technik-Interaktion_BPO2024 | Elected Specialization |
| Course of Studies | Status | | | | | | |
| Mensch-Technik-Interaktion_BPO2017 | Elected Specialization | | | | | | |
| Mensch-Technik-Interaktion_BPO2024 | Elected Specialization | | | | | | |
| 10 | <p>Weighting of Grade in Relationship to Final Grade</p> <p>Weighting equals the proportion of module credits in relationship to the total number of grade-relevant credits</p> | | | | | | |
| 11 | <p>Additional Information / Literature</p> <p>Literature:</p> <ul style="list-style-type: none"> • Bødker, S. and Kyng, M., (2018). Participatory Design that Matters—Facing the Big Issues. ACMTrans. Comput.-Hum. Interact. 25, 1, Article 4 (February 2018), 31 pages. • Cameron Banga, Josh Weinhold: Essential Mobile Interaction Design: Perfecting Interface Design in Mobile Apps • Steeven Hooper: Designing Mobile Interfaces • Ian G. Clifton: Android User Interface Design: Turning Ideas and Sketches Into Beautifully Designed Apps • Jason Farman: Mobile Interface Theory: Embodied Space and Locative Media • Jakob Nielsen: Mobile Usability: Für iPhone, iPad, Android, Kindle (mitp Business) • Phil Dutson: Responsive Mobile Design: Designing for Every Device • Christian Kuhn: UX Design für Tablets: Eine Anleitung für User Experience, Design und Webentwicklung • Theresa Neil: Mobile Design Pattern Gallery, Color Edition • Juhani Lehtimaki: Smashing Android Ui • Dave Brown: iPhone App Design Manual • Bill Buxton: Sketching User Experiences: Getting the Design Right and the Right Design, Morgan Kaufmann, 2007 • Saul Greenberg, Sheelagh Carpendake, Nicolai Marquardt, Bill Buxton: Sketching User Experience: The Workbook, Morgan Kaufmann, 2012 • additional literature will be announced during the course | | | | | | |
